

**345 SMALL GRANTS PROGRAM**

The Small Grants Program seeks to stimulate new and innovative research on food assistance and nutrition issues and to broaden the participation of social science scholars in these issues. Small grants last for 1 year; most are in the range of \$20,000 to \$40,000. The program is funded by ERS and is administered through selected universities and their associated research institutes located at five sites. The five institutions administer the application and peer review processes. Each of the institutions takes a different aspect of food assistance, nutrition, or subgroup of recipients as its primary focus.

**✓ EMPLOYMENT AND TRAINING ADMINISTRATION (ETA)**

Frances Perkins Building,  
200 Constitution Ave. NW  
Washington  
DC 20210

**346 FORMULA FUNDED GRANTS**

Formula funded grants are provided to specific grantees on the basis of a formula, prescribed in legislation or factors as population, unemployment rate, per capita income, or a specific need.

**347 COMPETITIVELY FUNDED GRANTS**

Competitively funded grants are awarded through the solicitation process in ETA. When competitive grants are open for competition, ETA will post a Solicitation for Grant Application (SGA). The SGA provides information on the type of project ETA intends to fund and that clearly states what types of organizations are eligible. To compete for a grant, organizations develop a proposal and budget that demonstrate how the organization will provide services to a targeted population.

**348 WORK INCENTIVE GRANTS**

To enhance the One-Stop Career Center system and by providing comprehensive informational and assistance services on multiple programs for which people with disabilities are eligible.

**349 DISABILITY PROGRAM NAVIGATOR INITIATIVE**

This initiative promotes comprehensive services and work incentive information for SSA beneficiaries and other individuals with disabilities through the One-Stop system.

**350 SCIENCE TO ACHIEVE RESULTS (STAR) RESEARCH GRANTS**

The STAR program funds research grants in numerous environmental science and engineering disciplines through a competitive solicitation process and independent peer review. The program engages the nation's best scientists and engineers in targeted research that complements EPA's laboratory research and research conducted by our partners in other federal agencies.
